President Clinton Fathers Illegitimate Mulatto Boy

Roger Fountain

Danny, age 8, is the illegitimate mulatto son of President Bill Clinton. Prostitute Bobby Ann Williams, right, is Danny's mother.

I recently learned another fact about our Negro-

I recently learned another fact about our Negroloving President that turns my stomach. President
Clinton did, in fact, father a mulatto child.

In 1983, at the age of 21, a Black prostitute by
the name of Bobby Ann Williams and two of her
Negress prostitute friends were working Main
Street in Little Rock, Arkansas, when the the
Governor Clinton came jogging by and stopped
to talk. According to the story nothing happened
on their first encounter, but a few days later Governor Clinton came by and nicked her up. She said on their first encounter, but a few days later Gov-ernor Clinton came by and picked her up. She said that Clinton paid her \$200 for oral sex, even though she had only asked for \$60. (What a spend-thrift!)

A couple of weeks later Clinton returned, and he found the three prostitutes together again. Clinton offered them \$400 each if they would have an orgy with him. When the prostitutes agreed to this, Clinton told them that he would return at 7 p.m. that night to pick them up in a big white car with tinted windows. He came by as planned, had his orgy with them, and then gave them all a \$50 tin.

Bobby Ann Williams told this story to investi-gative reporters Ken Harrell and Bob Boyd, who paid a professional lie detector expert to give her a test. During the test she was asked whether Clinton fathered her son, Danny, she said "yes"—

and she passed. Bobby Ann Williams gave birth to Danny in August, 1985.

Some of the other statements made by Bobby Ann relating to her affair with Clinton, and substantiated by her taking the lie detector test, are as follows. The then Governor Clinton took the three girls to his mother's house where they went into the bedroom, and Clinton took off his clothes and laid down on the bed. Clinton then ordered the Negresses to engage in Jesbian sex while he watched. After a while he joined in, and they all had a happy little orgy.

The reporters interviewed the neighbors on

had a happy little orgy.

The reporters interviewed the neighbors on both sides of Clinton's mother's house, who stated that Clinton used to bring people to his mother's house quite often while she was away. They then interviewed Bobby Ann's sister, Lucille Bolton, and their grandmother, who both fully agreed with Bobby Ann's story—even to the point that Bobby Ann's son, Danny, is Clinton's child. Lucille Bolton is quoted as saying, "He was White. That's when I started believing my sister. And as Danny got older, he started to look more and more like the Governor. Danny is Bill Clinton's boy. I've known it since I first laid eyes on him. All you have to do is just lay eyes on him and you know it, too." you know it, too.

Lucille Bolton also agreed to take a lie detector test. She passed on every question,

Clinton has also been accused of having an affair with newswoman Deborah Mathis of *The Arkansas Gazette*, another Negress, but both deny ever having an affair. Larry Nicols, close Clinton former aid, filed a suit against Clinton in which he charges Clinton with having affairs with two Negresses, Deborah Mathis and Lencola Sullivan, former "Miss Arkansas."

An anthropologist who studied a picture of Clinton and Danny found that the two had many close resemblances. These were so unusual that

the likelihood of Clinton being the father is very

strong.

Arkansas State Police officers, Larry Paterson, age 47, with 20 years of service and Roger Perry, age 43, with 16 years of service both say that Clinton has an illegitimate child. Their job as "special officers" assigned to the Governor were to assist in secret liaisons with six regular mistresses and scores of pick-ups and one-night-stands. Of course Clinton denies all these allegations, and any reporter from one of the major news networks daring to question him about this would be labeled a racist. It may be pretty easy for Clinton to keep this information out of the mainstream media, but he cannot hide it from you, the readers of The WAR Eagle.

If any of the information I have written here is

If any of the information I have written here is not accurate, President Clinton would have every right to suc *The WAR Eagle* in a court of law. I will send a copy of this article to the President, and we'll see what happens.

NAFTA Treaty Will Gut U.S. of Jobs

Arthur J. Jones

The fight over passage of the North American Free Trade Agreement (NAFTA) may have been the most cru-cial political battle of this century. Yet the average American worker and voter has simply no idea of the impact this treaty, passed by a cowardly, ignorant, and corrupt United States Congress, will have on his or her future. have on his or her future.

Simply put, this treaty will gut this nation of millions of jobs currently held by blue collar and white collar American workers. Anyone who claims otherwise is either a paid agent of the Big Money interests behind NAFTA or too gullible and uninformed to have an opinion on this issue.

Ross Perot, the billionaire former Presidential candidate, has written a devastating expose of this treaty in his book Save Your Job, Save Our Country, Why NAFTA Must Be Stopped - Now!

This book has an introduction written by Perot dated September 6, 1993. How-ever, I was able to purchase the book

several days before Labor Day, September 6, 1993. Perot obviously feels very strongly about this incredible sell-out of America's people by hundreds, or even thousands, of United States businesses, big banks, and insurance companies.

The treaty is a monster in size. It is divided up into two volumes. Volume I is divided into 8 parts with 22 chapters totaling 570 pages. These pages contain the key provisions of the agreement between the United States, Canada, and Mexico. Volume II is another 450 pages, and 147 of those pages are "exceptions" to the rules laid down in the previous volume and the rest of Volume II!

These "exceptions" or "special provisions" break down as follows: 21 pages for the United States; 42 pages for Canada, and 84 pages of "exceptions" and "special reservations" for Mexico.

Support your local Organization!

See NAFTA: Page 2

NAFTA: Cont. from page 1

Perot is probably correct in assuming that hardly anyone in the United States Congress even bothered to read through the entire treaty, as he has done. Instead, these oh-so-busy politicians relied on information prepared by paid agents of the Mexican government, by American compa-nies planning to move to Mexico, and by their own corrupt staff members who took a trip to Mexico with all expenses paid by the Mexican government!

How strong was this pro-NAFTA lobby from Mexico? It has been estimated by one political watch-dog group, the Center for Public Integrity, that Mexico spent close to \$60 million on direct lobbying for the passage of NAFTA.

In fact, Mexican President Carlos Salinas de Gortari, in February of 1993, hosted a private dinner of Mexico's social and business elite—29 men who were and are the most wealthy and powerful in all of Mexico. Citing the benefits of NAFTA which these already super-rich Mexicans could expect if the treaty were ratified by the United States Congress, he asked each of them to donate \$25 million to the Institutional Revolutionary Party (PRI), which has been ruling Mexico since 1929. The response was \$25 million from each man present, with the exception In fact, Mexican President Carlos each man present, with the exception of one man who pledged \$70 million! However, someone not wishing to donate that much leaked news of this meeting to some reporters, whose newspapers made such a noise that the payoff to the PRI's corrupt lead-ership was made impossible—for now, that is.

Now, if one foreign businessman is so pleased with a trade treaty that he is willing to donate \$70 million out of his pocket to see that treaty ratified by the United States Congress, then the Congress had better take a good, long, and thorough look at this treaty, which affects the lives of millions of American workers and their families.

Yet under the so-called "fast track" legislation, rammed through by for-mer President George Bush in his haste to get the treaty passed before the 1992 Presidential elections were over, the United States House and Senate agreed to limit debate on this important treaty to only 20 hours each! This means that each one of the Congressmen was allowed to speak for 3 minutes and 15 seconds on this treaty, and each Senator was able to huff and puff on its merits or short-comings for 12 minutes!

In actual fact, only a handful of Representatives and Senators knew anything at all about this treaty, and those were the ones who want to see it passed. The overwhelming major-ity of the United States Congress had no idea of the dozens of hidden booby traps within this 1,000 page treaty, which are set to explode once this treaty becomes effective.

Specifically, the following United States industries will be, in Perot's words, "utterly devastated" by this treaty

Trucking - NAFTA allows Mexican trucks free access into the United States with loads of up to 170,000 pounds on highways designed for 80,000 pound limits. Mexican trucks and their drivers are exempt from United States commercial licensing requirements and safety standards. United States trucks will not be allowed to operate in Mexico for 3 years!

Perot also points out that our highways, bridges, and tunnels will be torn up by these vastly overweight Mexican trucks. This will also make it possible to smuggle vast quantities of illegal drugs across the border hidden in these trucks, who will be given a maximum inspection time of less than 5 minutes per truck-cargo at a rate of over 700 trucks a day!

Automobile Production - All tar-iffs on any automobile, truck, or van imported from Mexico into the United States, whether they are pro-United States, whether they are produced by American, Japanese, or European companies with plants in Mexico, will be immediately removed. Mexico, however, may impose tariffs on 50% of all cars produced in the United States that are imported into Mexico!

Clothing and Textiles - Currently 1.3 million American workers hold down these jobs in factories across the United States, mainly in the south and east. They average \$6.94 an hour for clothing workers and \$8.53 an hour for textile workers. But their jobs will be gone if NAFTA is passed, for they will be competing against Mexican workers in the 222 featories established in Mexican average and the state of the against Mexical Workers in the 222 factories established in Mexico pay-ing \$1.64 an hour. Already 129 of these 222 factories are from the United States. The rest are from foreign countries like Malaysia and China, who are set to flood the United States with their products once NAFTA is passed.

Agriculture and Citrus Foods -Under NAFTA, the United States must immediately cut by 50% all tariffs on frozen concentrated citrus. Mexico has only to "phase out" over an unspecified period of time its 20% tax on citrus immediately from the United an unspective period time is 20% tax on citrus imports from the United States. This is just another "special consideration" or "reservation" that gives Mexican citrus producers an unfair advantage over the 145,000 for the citrus producers and unfair advantage over the 145,000 for the citrus producers and unfair advantage over the 145,000 for the citrus producers and the citrus producers are citrus producers. American citrus workers.

Also, the sanitary standards adopted under NAFTA regarding the use of pesticides, such as DDT, are based on the drastically lower standards of a United Nations agency known as CODEX. Under Codex, peaches and carrots may contain 50 times more DDT than would be allowed under United States agencies such as the Food and Drug Administration or the Environmental Protection Agency.

Thus the very health of the popula-tion will be greatly endangered by the passage of the NAFTA treaty, as fruits, vegetables, and meat products loaded with DDT and other chemicals, are allowed to flood into the United States where before they were kept out.

NAFTA also requires the United States to remove any citizenship or residency requirements for profesresidency requirements for professions such as doctors, lawyers, accountants, and teachers. A total of 63 professions, employing 15 million Americans, will be directly affected by NAFTA.

This means that hundreds of thousands of professional and semi-proparties of professional and semi-pro-fessional workers, such as pharmacists, architects, nurses, and engineers, will be pressured to reduce their salaries and benefits or see their jobs go to Mexicans in these areas. Thus Mexicans who are need to Thus Mexicans, who are used to working for much less, will under

NAFTA be allowed to legally enter this country to take these jobs

Incredible as it may seem, not one member of the United States negotiating team, and there were 14 in the Commerce Department's Mexican Bureau, spoke Spanish! And only 5% of the Mexican government's docu-ments pertaining to all the regulations in their country governing foreign trade were even translated into Eng-lish for the United States team to

What kind of idiots were repre-senting the United States' interests? Or were they really just going through the motions of what is clearly the biggest betrayal to our nation since the creation of the Federal Re-serve system in 1913 by a United States Congress clearly as ignorant, reckless, and/or corrupt as this current Congress is proving to be

And who is it that represented Mexico? The current legal counsel Mexico? The current legal contact for Mexico on NAFTA is Robert Herzstein, the inevitable Jew. Her-zstein was a former United States Under-secretary of Commerce for International Trade. He is joined by other Jews such as Robert Reich, Secretary of Labor, Robert Rubin, head of the Council of Economic Advisors; Alice Rivlin, Deputy Director of the Office of Management and Budget; and the top Jew, Mickey Kantor, United States Trade Representative

These Jews in the government were working with other Jews hired by the Mexican government to lobby for the passage of NAFTA. Some of these Jews are: Peter Ehrenhaft;

James Frierson; Martin Gold; Ruth Kurtz; Howard Liebengood; and Otto Reich. Every one of these Jews was formerly employed by the United States government as Ambas-States government as Ambassadors, former Under-secretaries of States, or staff assistants to the United States Congress. However, they simply betrayed this nation for whatever amount of money Mexico was willing to pay to get NAFTA passed, with their assistance.

NAFTA supporters number 40 of 50 State Governors, all 5 former United States Presidents, the biggest United States banks and insurance companies, the Jewsmedia, and U.S.A.-NAFTA, the newest lobbing group, which consists of 1,000 United States corporations, many already operating out of Mexico. They see nothing wrong in forcing American workers to compete against Mexican workers, where the minimum wage is \$.58 an hour and top wages run from \$1.64 to \$2.35 an hour without any benefits or a right to organize a union. Opposed to NAFTA supporters number 40 of to organize a union. Opposed to NAFTA is the AFL-CIO and other big unions, consumer crusader Ralph big unions, consumer crusader Ralph Nader, Black activist Jesse "Spti" Jackson, and syndicated columnist and former Presidential candidate Pat Buchanan also joined the battle against NAFTA.

Remaining on the sidelines stands the great mass of the American peo-ple, oblivious to the danger this treaty poses to their lives. Perhaps this arti-cle and Ross Perot's book will help to shed a little light in the darkness into which ignorance and greed have plunged us all

The Neighborhood Amendment

Arthur Jones

As more and more non-Whites push their way into America, the time is fast approaching when there will be no such thing as a White neighborhood or a White school, and by then we will be on the last generation of White children. Indeed, that is precisely the goal of the race traitors at all levels of government—local, state and federal—in this government-local, state and federal-in this country

Until such time as we can build our ranks for the final battle, which we all know must eventually take place, there is a need for an option that can preserve, for a time, White neighborhoods and White culture. That proposal is the Neighborhood

This idea has proven to be a concept that can win wide support among White people—once they understand what it is they are being asked to sup-

Basically, the Neighborhood Amendment is a simple concept that seeks to return to White Americans the right of self-determination. This right, which establishes that a people or a community may rightfully determine for themselves the type of society in which they wish to live, was taken from us by the Supreme Idiots of the United States Supreme Court in two decisions. States Supreme Court in two decisions.

In 1948, in the case of Shelly vs. Kramer, the United States Supreme Court declared that any agreement in the deed of a home to be sold by its owner which included clauses restricting the sale to "White Christians only" or "Aryans only" (or any other so-called "restrictive covenants") was unconstitutional under the Fourteenth Amend-

That decision paved the way for the passage of the so-called "open housing laws," which were designed to make sure every White neighborhood designed to make sure every White neighborhood had a good mix of any non-White, two-legged wog, Jig, gook, taco-bender, camel-jockey, or space alien who lands on our shores. Add to that an admixture of people with "diverse" sexual orientation and you pretty well have the formula for the eradication of White European Christian culture along with that culture's people.

Then in 1954, once again, the United States Supreme Court's fools, led by former California Governor Earl Warren and a Jew from Austria named Felix Frankfurter, declared that schools segregated by race were also unconstitutional. This was the infamous, fraud-based decision of Brown vs. the Board of Education. That decision led to forced school desegregation, forced bussing, and the policies of forced race-mixing.

The Neighborhood Amendment is a frontal assault which seeks to overturn those two decisions sault which seeks to overturn those two decisions by the highest, or rather (in our opinion) the lowest, court in the land. With four decades of this kind of anti-White nonsense it is time White people really made their wishes known. While the Amendment itself has not been adopted, the spirit of the Amendment and the principle of self-determination is finding superstanting.

tion is finding support among members of the Illinois State Legislature.

State Senator Robert Raica (R), a Chicago resident, has introduced a bill in the Illinois Legislature which will

allow the people of Marquette Park to hire their private police force and pay for it themselves by voluntarily taxing themselves about \$50 per home per year. That is exactly what the Neighborhood Amendment stands for—community self-determination and control.

Had the people of Marquette Park been given the option of voting for or against letting non-Whites into their neighborhood, as the Neighborhood Amendment would have allowed them to do, they would not have to had to vote to tax themselves an additional \$50 to pay for hiring a private police force to control the hordes of non-White criminals they foolishly allowed to move in!

It's too late for the people of Marquette Park, but there are many other communities in this state and around this nation where the Neighborhood Amendment can prevent the nightmare of seeing previously safe, clean, White neighborhoods and small towns turned into dirty, crime-ridden Third World slums.

We encourage White activists running for office to take up the battle where we left off, and in your campaigns call for the passage of the Neighborhood Amendment. For further information, contact the America First Committee, P.O. Box 29316, Chicago, IL 60629.

KOSHER FOOD RACKET **EXPOSED**

There are a lot of reasons for rising food prices, and every economist has his own pet explanation and cure. Interestingly, there is one factor that is never mentioned for one reason—it has to do with a secret Jewish, or Kosher, tax put on grocery items.

Although you might find this claim incredible, it is nonetheless true, and you can prove it to yourself with a simple

Let the doubter go to his kitchen and get out any dozen cans of food products and a few cans of scouring powders, soap, etc. Examine the labels of these cans carefully for either a little "U" in a circle, or a "K." The "U" stands for Union of Orthodox Jews, the "K" for Kosher. Do not confuse this with a "R," which stands for a registered trademark, or a "C" for copyright.

You will find most of these Jewish symbols, or hecshers, on most food products. They mean that the company paid to have a rabbi bless this chow for Jewish consumption. In many cases it is not even a food item, with steel wool and anti-freeze also getting "blessed."

Now, some people may defend these "blessings," but they really boil down to nothing more than extortion. Ask yourself this; if this was nothing more than a bizarre religious ceremony, giving rabbinical approval to a food and food products prepared in a specific way to meet a kooky religious diet, then why are they "blessing" steel wool and anti-freeze? These Jews must have a strange diet indeed!

Also, if these "blessings" are so important to Jews, then why do they charge for them? You would think that they would be willing to do them as a service to their own.

Lastly, why must this secret tax be passed along to Christians and other non-Jews?

It has been estimated that consumers spend well over \$100 million a year on this racket that goes to line the pockets of these rabbis. You will never see this rip-off exposed on TV "news" shows such as 60 Minutes or 20/20. Can you imagine the uproar if it was discovered that priests

were charging companies to put little crosses on products heading for Israel? Calls for separation of church and state would be forthcoming from the electronic media and the pages of the Jewish controlled and manipulated press.

Now is the time for Aryans to begin resisting this extortion. Write to each and every company that mark their products with the Jewish hecsher and ask for your money back! Only by a concentrated protest will this practice be discontinued. It's up to YOU!

U.S. HOLOCAUST MUSEUM: A LANDMARK OF SHAME

We, the members and supporters of the America First Committee, are both outraged and embarrassed by the political cowards in Washington D.C., who succumbed to the Jewish Lobby in creating the most obscene physical monument to over sit on federal land—the U.S. Holocaust Museum.

The very creation of this museum to honor foreign nationals sets a precedent which, were it followed, would clutter Washington D.C. with museums and monuments from every racial and religious group in the world. To donate valuable space for this museum is just another example of the reckless waste of the taxpayers' money, for which the politicians and bureaucrats in Washington are infamous.

We also see this museum as a blatant violation of the separation of church and state, in that the so-called "Holocaust" has become a part of the teachings and doctrines of the Jewish religion! Why should the Christians and other non-Jews be denied federal land to create museums to honor their sufferings and martyrdom?

Moreover, in our view and in the opinion of scholars around the world, the "Holocaust" as it has been endlessly depicted in books, movies, TV dramas, plays, newspapers, and magazines, simply did not take place. Nobody denies that Jews died, along with millions of other non-Jews, during W ll. What we do deny is the claim that Jews suffered greater losses than anyone else in that conflict. Thus they should not be entitled to any museum or special memorial.

On the other hand, the Jewish-founded, Jewish-financed, and Jewish-led movement of International Communism, from 1917 right on up to 1993, has been and still is responsible for the persecution and murder of at least 150 million people around the world. We include in this figure the 50 million killed on both sides in World War II so that the Jews could create the state of Israel, a state dependent on "Holocaust" reparations from Germany and "Holocaust"-stained foreign aid from the U.S. government.

In our view, the "Holocaust" is nothing more than an international racket by Jews to bleed, blackmail, and terrorize their many enemies around the world into silence about their crimes, or subservience to their aggressive designs for an ever-expanding Israel in the Middle East.

Until the "Holocaust" Museum is opened up to document the undisputed sufferings of Ukrainians, Latvians, Estonians, Poles, Hungarians, Germans, Japanese, Chinese, Arabs, and Christians, this museum will remain what it currently is—a national landmark of shame to America's politicians, who have been made cowards by the Jewish Lobby.

Publishers Note: This was the special press release prepared and distributed by the America First Committee to journalists who had come from around the globe to report on the opening of the U.S. Holocaust Memorial Museum, April 22, 1993.

New Auschwitz Plaque Reduces Toll Again

WARSAW (FNS) - A new plaque to be unveiled at the former Jew internment and work camp at Auschwitz will reduce the grossly inflated figure again of those who died there from diseases such as typhus by over half, Polish state television said recently. It said the decision was agreed to by the Auschwitz museum's international council, a non-governmental body which oversees the site and includes members of foreign Jew career holohoaxers and ex-inmates.

"The latest research by scholars (Jews) attached to the Auschwitz museum has shown that the figure of four million victims, established on the basis of fragmented ac-

counts (outright lies) by Jews after the war, was untrue" (So what credibility could the "new" figures have?). "In reality there were between 1.1 and 1.5 million victims," the television said.

A Polish journalist (Jew no doubt) appointed by a previous government to look at problems connected with the former camp said at the time he believed the figure of four million was deliberately exaggerated by the Soviets who liberated the camp in 1945 and carried off its records which stated that no more than 74,000 died from all causes at the camp. (So now the Jews blame the Soviets for their lies! - Editor.)

Survey: 1 in 5 Question Holocaust

NEW YORK - A third of Americans are open to the possibility that the Holocaust, Nazi Germany's extermination of 6 million Jews, never happened, according to a survey released last year by the American Jewish Committee.

Twenty-two percent of the respondents to the Roper Organization surveyed said it seems possible the Holocaust never happened.

The findings shocked Holocaust survivors, some of whom have devoted much of their lives to keeping alive the memory of the systematic extermination of Jews during World War II.

"What have we done? We have been working for years and years," said a stunned Elie Wiesel, a Nobel laureate who chronicled his experiences at the Auschwitz and Buchenwald concentration camps.

"I am shocked that 22 percent...oh my God." "The only word that comes to mind is it's 'Frightening.'"
